

Act II

SELF-CLEANING FILTRATION

& Cyclo II

FULLY CYCLONIC SEPARATION

- UNIQUE ACV MODULAR DESIGN
- QUICK RELEASE, LIFT-OFF MOTOR MODULE CAN BE COMPLETELY REMOVED FOR SERVICING (WITHOUT THE USE OF TOOLS)
- MOTOR MODULE IS FULLY INTERCHANGEABLE FOR FUTURE UPGRADES.
- FEATURES AMETEK LAMB 2 STAGE BYPASS VACUUM MOTOR MODEL #116472.
- SELF-CLEANING FILTRATION PROVIDES THE ULTIMATE IN MOTOR PROTECTION AND DUST-FREE OPERATION.
- THE LATEST IN ELECTRONIC PRINTED CIRCUITRY FOR RELIABILITY.
- SELF CLEANING FILTRATION. (ACT II ONLY)

Mfg. by A.C.V.®

- FULLY CYCLONIC SEPARATION MEANS NO BAGS TO CHANGE AND NO FILTERS TO CLEAN. (CYCLO II ONLY)
- PROVIDES 100% CLEANING POWER AT ALL TIMES. (CYCLO II ONLY)
- TOP GRADE HEAVY METAL CONSTRUCTION WITH HIGH GLOSS EPOXY POWDER COATING FOR DURABILITY.
- SUITABLE FOR APPLICATIONS UP TO 4,500 SQ.FT.
- LARGE CAPACITY DIRT CANISTER MEANS LESS FREQUENT EMPTYING.
- BACKED BY 10 YEAR MANUFACTURERS WARRANTY.

SELF-CLEANING FILTRATION EXPLAINED

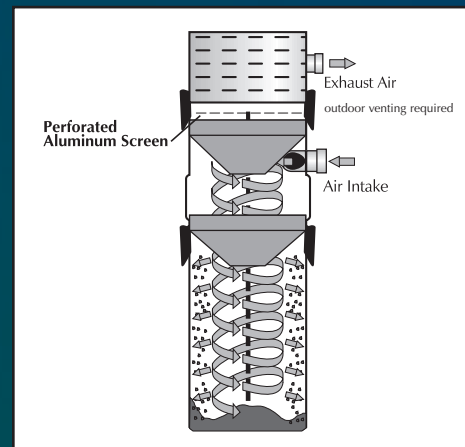

Our Self-Cleaning Models will provide the ultimate in motor protection and dust-free operation (up to 99.9% efficiency). The filter bag is lifted as the power unit is turned on.

Once the power unit is shut down, the weighted self-cleaning filter element drops and displaces the accumulated dust and deposits it into the dirt canister.

A.C.V. Vacuum systems are easily recognized in the vacuum industry. Each and every one of our vacuums has been handcrafted using only top quality materials. You have our commitment to provide you with the excellence our customers worldwide have come to expect.

A.C.V.'s unique modular design allows for quick and easy removal of motor module for servicing.

FULLY "CYCLONIC SEPARATION" FILTRATION EXPLAINED

Dirt laden air is pulled by the powerful motor into the dirt canister and is immediately directed into a cyclone configuration. Centrifugal force and gravitational pull deposit the dirt in the canister. Air is then exhausted outside ensuring that allergens are not recirculated back into your environment. Because there are no bags or filters to obstruct airflow, the result is 100% suction at all times.

A.C.V. Vacuum systems are easily recognized in the vacuum industry. Each and every one of our vacuums has been handcrafted using only top quality materials. You have our commitment to provide you with the excellence our customers worldwide have come to expect.
