Model 116119

The Dream Home Edition features the Ametek Lamb Motor which is notorious for its extra power and dependability

A.C.V.'s unique modular design allows for quick and easy removal of motor module for servicing.

Self-Cleaning Filtration Explained

Our Self-Cleaning Models will provide the ultimate in motor protection and dust-free operation (up to 99.9% efficiency). The filter bag is lifted as the power unit is turned on.

Once the power unit is shut down, the weighted self-cleaning filter element drops and displaces the accumulated dust and deposits it into the dirt canister.

A.C.V. Vacuum systems are easily recognized in the vacuum industry. Each and every one of our vacuums has been handcrafted using only top quality materials. You have our commitment to provide you with the excellence our customers worldwide have come to expect.

A.C.V. for Accountability... Commitment... and Value
